BILLING FAQs

- Q. Does my bill for wastewater service include a charge to fund the Low-Income Customer Assistance Program?**
A. Yes. As part of your sewer charges, each month you pay 45 cents to fund the Low-Income Customer Assistance Program. The Low Income Customer Assistance Program ("LICAP") provides a credit on wastewater service to qualified customers. LICAP also provides qualifying customers assistance with water-saving appliances and repairs. More information about our program can be found at: <https://www.citizensenergygroup.com/My-Account>.
- Q. Can I obtain a more detailed list of the charges on my bill?**
A. Yes. Upon request, Citizens will provide monthly bills with more detail on specific charges. You can request a detailed bill by contacting a customer service representative at (317) 924-3311 or selecting the option on-line at <https://www.citizensenergygroup.com/My-Account/MyProfile/Billing-Preferences>. There is no additional charge for a detailed bill.
- Q. My Account Balance seems too high or low. Could there be a problem?**
A. Your total bill is impacted by several factors such as the Previous Balance, Other Activity such as charges or adjustments, and Historical Information. More information is available online at [citizensenergygroup.com](https://www.citizensenergygroup.com) or by contacting Customer Service.
- Q. How does Historical Information help determine if my bill is too high or too low?**
A. Monthly gas and water usage can be compared to previous history using the charts to verify current usage is in line with typical usage. Gas consumption is likely to increase with colder weather and water consumption may be impacted by activity such as lawn irrigation or household changes.
- Q. Why would my meter reading be estimated? What if my reading was over or under-estimated?**
A. Citizens attempts to get actual reads each month, but an estimation may be necessary if we cannot safely access a meter due to weather or obstructions such as landscaping or fences. When estimating bills, Citizens reviews historical usage and considers the weather. The estimated reading will automatically adjust with the next actual reading.
- Q. I think I have a water leak – what should I do?**
A. Please refer to our website for useful, self-help tips or give us a call before contacting a contractor. It could be something as simple as a running toilet/silent toilet leak or a misread.
- Q. Can a deposit be charged to my bill for late payment?**
A. Yes. If the account has two (2) disconnect bills in a row or three (3) disconnect bills in a twelve (12) month period a deposit may be charged to the account.

DEFINITIONS

CCF - Amount of gas and water which goes through the meter, measured in 100 cubic feet. For water and sewer, 1 CCF is approximately 750 gallons.
cr - Indicates a credit.
Cu FT - Cubic Feet - A standard unit of measure for volume.
Therm (THRM) Used - Energy value of the gas used
Conversion - Used to convert the metered consumption to calculated charges for billing purposes (for example CCF to Therms)
Gas Charges - Includes cost of gas used, maintaining a safe and dependable distribution system, meter reading, billing and various customer services.
Sewer Charges - Based upon the volume of water used. Cost to maintain disposal system, safely process discharge, and billing services.
Water Charges - Includes cost of water used, maintaining a safe dependable distribution system, meter reading, billing, and public fire protection.

Safety Heat Your Home in the New Year

Citizens Energy Group and your local fire departments want you to stay warm and safe during the cold winter months. Home-heating equipment is one of the leading causes of home fires and related injuries and deaths, but you can make your home safer by following these tips:

- Keep anything that can burn, such as blankets or curtains, at least 3 feet away from your furnace, fireplace, wood stove, portable space heater, or other heating equipment.
- Follow the manufacturer’s instructions on how to operate and maintain your equipment.
- Plug electric space heaters directly into the wall and turn them off when you leave the room.
- Never use your oven or stovetop to heat your home, as it can cause a fire or produce harmful or even fatal carbon monoxide.
- Check your smoke and carbon monoxide alarms and practice your fire escape plan.

Some local fire departments - including Indianapolis Fire Department - provide smoke alarms and/or carbon monoxide alarms to the residents in their service areas. Reach out to your local fire department to see what kind of fire-prevention and safety information programs are available in your community.

Now Open: Winter Assistance Fund from the United Way

As of January 1, a yearly bill assistance program from the United Way of Central Indiana is open to applicants. The Winter Assistance Fund (WAF) is for Citizens Energy Group or AES Indiana customers who struggle with home-heating costs but don’t qualify for the federal Energy Assistance Program (EAP). Find an application site near you at www.uwci.org/waf. You can apply for the Winter Assistance Fund while funds are available, or until May 31, 2026.

If you’re struggling to keep up with your utility bills, Citizens recommends calling us at (317) 924-3311 to talk through your options. Customer service representatives can explain account tools for managing your bills or how to apply for assistance, including EAP or our utility’s own Warm Heart Warm Home Foundation™. More information is at www.citizensenergygroup.com/help.

Look for coupons on the back!

Conservation Tip:
Seal and insulate ductwork to reduce heat loss and conserve energy.

Safety Tip:
Unused and expired medications should not be treated like other kinds of household waste. If improperly disposed, medications can enter our drinking water supply or harm fish and aquatic wildlife. Find out where and when to safely dispose of medications at www.in.gov/IDEM and search “unwanted medicines.”
